

# ENVIRONMENTAL POLICY TFP sp. z o.o.

TFP, operating in the field of corrugated board and packaging production, is aware of the environmental impact of its activities. Environmental protection and the sustainable use of raw materials are an important factor in building our long-term value. Our efforts to achieve this objective are based on applicable national, European and international regulations.

The Environmental Policy provides the basis for setting environmental objectives and targets and constitutes an integral part of the environmental management system in accordance with ISO 14001. This policy is subject to continuous improvement, and the implementation of environmental actions is monitored, reported and reviewed by TFP management, which is responsible for its implementation.

We declare full commitment to the implementation of our environmental policy and ensure the necessary resources for its implementation and continuous improvement. In order to implement this Environmental Policy, TFP commits to:

- acting in accordance with applicable legal and other requirements related to our activities, including customer environmental requirements;
- efficient and responsible use of raw materials for the production of board and packaging, including monitoring of energy, water and fuel consumption;
- maintaining the share of recycled raw materials or materials from certified sources;
- minimizing the amount of generated waste and ensuring segregation at source;
- setting measurable environmental objectives and systematically monitoring their achievement (e.g. energy and water consumption, waste quantities, share of recycled materials);
- preventing pollution of soil, water and air;
- applying the best available production and organizational techniques to reduce environmental impact while maintaining high product quality;
- monitoring and evaluating the effectiveness of corrective and preventive actions;
- building environmental awareness through training and information activities;
- encouraging employees to submit environmental initiatives and improvement proposals.

The Environmental Policy is:

- communicated to all employees;
- available to external stakeholders;
- the basis for dialogue regarding the environmental impact of the company's activities;
- subject to periodic review and update, taking into account audit results, legal changes and identified environmental aspects.

This policy applies to all TFP employees and provides a framework for maintaining compliance with ISO 14001 requirements and customer expectations regarding environmental protection.

Date: 14.01.2026

President of the Management Board  
Andrzej Tylenda
